Re: 2016 United Way Centraide Campaign

OSSTF/FEESO is very pleased to endorse the United Way Centraide Campaign for 2016.

We have worked with our community partners to identify and help to address the root causes of social problems and look forward to working again with the United Way Centraide movement to create real change in local communities.

OSSTF/FEESO is acutely aware of the struggles of working families and the challenges that face the kids that we work with each and every day.

We want to assist the United Way Centraide Campaign by contributing both our human resources and our financial resources and are encouraging our members to take a very active role in the upcoming 2016 campaign.

In solidarity,

PAUL ELLIOTT
President, OSSTF/FEESO
